

Create a new View

Name: *

The unique identifier of the view; it is only important for overridden views and views that modules or themes will need to use. Only alphanumeric and _ allowed here. **This field is not editable after creating the view.**

Description:

A description of the view for the admin list.

- access:**
- administrator
 - anonymous user
 - authenticated user
 - Contributor

Only the checked roles will be able to see this view in any form; if no roles are checked, access will not be restricted.

Show **in a** **as a**

what do you want to display ?

How do you want to display your content ? You can modify, add or remove displays later.

	Node: published	Filter by whether or not the node is published. This is recommended for most Views!	
	Node: type	Include or exclude nodes of the selected types.	
	Role: Author role	Include the node only if the author is a member of the selected role.	
	Is All Of	<div style="border: 1px solid black; padding: 5px;">administrator anonymous user authenticated user Contributor</div>	Expose
add filters	Role: Author role		Add filter

Filters allow you to select a subset of all the nodes to display. All Filters are ANDed together.
